

# Programming Robots Just Got Easier (And more fun!)

# ROBOT Robot Virtual Worlds

Use the same ROBOTC code as you do on your LEGO or VEX robots.

## Learn to Program Here

Program virtual robots.

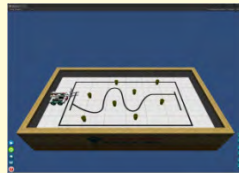

Minefield Challenge

Obstacle Course

Bull in Ring Challenge

Slalom Challenge

## Robot Virtual World Features

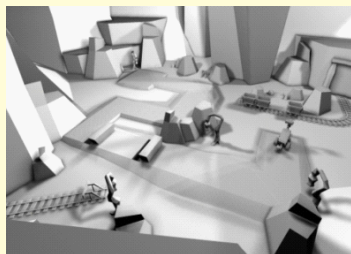

- Includes ROBOTC's powerful interactive run-time debugger.
- Training materials posted at the ROBOTC website.
- Game like environment to make programming fun.

**And everyone has their own robot!**

# Programming "the New Basic"

## Practice Programming Here

Game Like Programming Challenges.

## Virtual Worlds

- Ice World
- Desert World
- Tropical World
- Cave World
- Underwater World
- Future World
- FTC Challenge
- VEX Challenge
- Grand Challenge
- Planet H99

*Example worlds pictured at the left*

Robot Virtual World Software can be used without a physical robot, but is designed to complement both LEGO and VEX robot platforms. New programming challenges will be released throughout the year.
